

## **Additional TFK teams assist Region I ECs in power restoration**

PHILRECA Press Release

July 31, 2025

In coordination with the Philippine Rural Electric Cooperatives Association, Inc. (PHILRECA) and the National Electrification Administration (NEA), two electric cooperatives (ECs) under Region 1 Electric Cooperatives Association, Inc. (RECA 1) deployed technical support groups for their sister-ECs in the region.

On 29 July 2025, Pangasinan III Electric Cooperative (PANELCO III) deployed seven lineworkers to assist their colleagues in Pangasinan I Electric Cooperative (PANELCO I).

Meanwhile, Ilocos Sur Electric Cooperative, Inc. (ISECO) assembled a team of 10 lineworkers for La Union Electric Cooperative, Inc. (LUELCO) and Sugpon, a heavily damaged area within ISECO's coverage. The first five members have been dispatched on Wednesday, 30 July 2025, while the remaining team members traveled earlier today, July 31.

PANELCO I and LUELCO are actively restoring power to their coverage areas by rehabilitating damaged infrastructure caused by Typhoon 'Emong' and the southwest monsoon.

The NEA-PHILRECA-EC Task Force Kapatid is a special unit assisting ECs in rehabilitating facilities damaged by calamities, deployed by NEA, PHILRECA, and EC Regional Associations.
